-----------------------	--

Presenter	Clare Parker, Chief Officer, CWHHE CCGs		
Author	Simon Carney, Collaboration Board Secretary		
Responsible Director	Clare Parker		
Clinical Lead	CCG Chair		
Confidential	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Items are only confidential if it is in the public interest for them to be so

The Governing Body is asked to:
note the latest report and the post-meeting amendments made for reasons of accuracy to the Babylon section of the November Collaboration Board meeting.

Summary of purpose and scope of report
<p>Purpose of the report</p> <p>This summary update details the business that has been dealt with in recent meetings of the NW London CCGs' collaboration board held since the last report in November.</p> <p>Other areas of collaboration continue to be developed in a consultative manner before being taken to governing bodies for local decisions and /or adjustments.</p> <p>The collaboration board facilitates strategic collaboration across common objectives held by eight clinical commissioning groups (CCGs): Central London CCG, West London CCG, Hammersmith & Fulham CCG, Hounslow CCG, Ealing CCG, Brent CCG, Harrow CCG and Hillingdon CCG.</p> <p>The board's vision is to improve patient care across NW London's health economy as a whole. Our commitment is to do so by respecting the individual sovereignty of our member CCGs, promoting meaningful stakeholder engagement and facilitating evidence-based decision making in the best interests of our respective local health populations.</p> <p>Amendment to November Collaboration Report to the Governing Body</p> <p>Further, Annex B sets out, for information, the post-meeting amendments made to the section in the last report that related to the Collaboration Board's decision to not proceed to a pilot with Babylon at that time.</p> <p>As the Governing Body may be aware, the publication of the Collaboration Board's report led</p>

Item: 17

to confusion in the HSJ about whether or not NWL CCGs were at formal pilot stage with the Babylon evaluation. This was caused by my over-concise synopsis of the discussion and misattribution of feedback from focus groups on their potential use of the symptom checker to patients and their actual use of the app. This misattribution was picked up by the HSJ and caused a ripple across social media and consternation for Babylon in particular. In response, the text of the Collaboration Board report was amended to better-reflect the Collaboration Board's discussion and published alongside a suitable note highlighting the post-meeting change to the report. The revised text is attached at Annex B for information.

Quality & Safety/ Patient Engagement/ Impact on patient services:

The board seeks to improve patient health outcomes through the delivery of joint strategies.

Finance, resources and QIPP

There are no additional resource implications not already agreed by the CCGs. Cost sharing arrangements are in place for NW London CCGs' shared commissioning support services. All joint finance strategies or proposals with financial applications are brought to governing bodies for local decision.

Equality / Human Rights / Privacy impact analysis

Lay member and Healthwatch representation is included on the collaboration board to provide input into strategies as they are being developed. Detailed verbal and written feedback following consultation during 2014 was provided by lay members, which is reflected in the arrangements and the 2014 Collaboration Agreement.

Risk	Mitigating actions
The work of our collaboration board supports the assurance work on behalf of the statutory CCGs to oversee effective delivery of the NW London Sustainability and Transformation Plan (STP), which articulates the CCGs' strategic objectives.	The CWHHE Board Assurance Framework identifies the mitigating actions to address risks associated with the delivery of these organisational strategic objectives.
