The Governing Body is asked to:
Discuss the report and note the progression in delivery.

Summary of purpose and scope of report
This report provides a summary of progress over the last quarter towards achieving the transformation objectives of the Health and Care Partnership.
What are the benefits of this project?
<p>The aim of the Health and Care Partnership is to deliver a shared health and local government ambition across NW London.</p> <p>The Partnership works to add value across the NW London Health and Care system and support tangible improvements to health and care services for the two million people who make up the NW London community, helping people to be well and live well.</p> <p>This report provides assurance that the NW London Health and Care system is effectively taking forward our strategic transformation objectives. The impact of this will be improved services and outcomes for the NW London population.</p>
Patient, staff and stakeholder engagement
Lay partners, patient and public representatives are members of the Partnership governance structures and are involved in all aspects of the transformation work.
Jargon buster
<p>Integrated care – an umbrella term that covers a variety of efforts to join-up health and social care organisations to achieve greater efficiency and more continuity in care.</p> <p>COPD – Chronic Obstructive Pulmonary Disease; term used to describe a variety of progressive lung diseases including emphysema, chronic bronchitis and non-reversible</p>
