

You own and pay
for the NHS
through tax!

And with you, we
have to decide how
it works...

At the CCG, we
want to make
services better

And save your
money

Because people
are getting older

And lots of
people are
unwell

So we want to
talk to you!

About you,

and your health
care

We want to
change how we
pay for services

Like GPs,
hospitals, and
many more!

To get them to
work together
more!

Rather than
separately, like
now

We think this
will make them
better

Because it will
be cheaper

and will mean
better care for
you

But first, we
need to know
what is
important to
you!

So we can ask services to give you what need, in the way you want!

We want to ask
you some
questions

But, it's up to
you if you want
to answer, or
not!

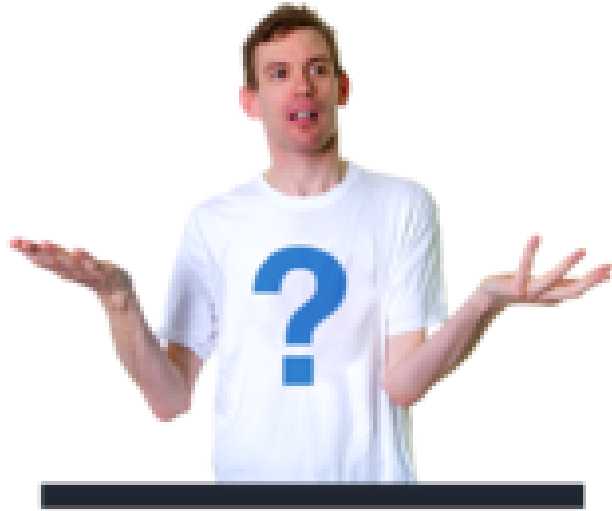

If you do, we will
collect your
answers...

... but people
won't know who
said what!

Thank you for
your time...

Any questions
before we start?
